Aims and activities of the organisation	Creative Institute is a young educational and advisory organization based in the regional capital city České Budějovice in Southern Bohemia. Our organization acts as a catalyst for creative processes by providing external support to people that lack the confidence or the know-how. We look for creative opportunities for primarily young people and help implement their projects. We create and support professional creative communities. We connect people from the nonprofit, business and scientific sector to provide non-formal education and innovative problem-solving solutions. Our team is made of people with experience from educational and creative fields. We connect creativity and education to offer real-life work opportunities and to transform the creative industrial ecosystem. Our activities are following: 1) production of workshops within the framework of our annual cycles (Professionals for NPOs, Professionals for Science and Professionals for Schools); 2) physical implementation of thematic studios - creative ateliers - throughout the city, each with a transdisciplinary and multidimensional overlap; 3) practical training for students and young practitioners in creative industries; 4) organization of creative camps for students of different creative majors; and 5) mediation of internships in our partnering organizations. We are interested in audiovisual, innovative, educational and transformational projects and sustainable cooperation.
